

CHAPEL HILL STATE SCHOOL

Transition-to-Prep 2022 Events

Starting school is an important time for children and their families - a time of change that can be both challenging and exciting. We know the significance of a positive experience for all, and our 'Transition to Prep' program includes a range of activities, events and initiatives designed to help bridge the gap between kindergarten and school and ensure a successful start for each child. We welcome and encourage you to visit our campus on a number of occasions prior to your son or daughter starting school, so you can meet teachers and get to know the facilities.
